

EXPERTISE, KNOWLEDGE, SERVICE & COMMITMENT

Bran+Luebbe has been a worldwide leader in metering, analyzing and processing liquids for more than 70 years. The name Bran+Luebbe stands for high quality and precision, as one of the world's most reputable manufacturers of proportioning and process pump systems. We have the highest quality standards, pioneering innovations and comprehensive know-how in the industry.

SERVICE MAINTENANCE

Bran+Luebbe stands by their products for the entire service life of your equipment. Services teams are on site during set-up, and take charge of all important testing and maintenance tasks. They identify and eliminate any sources of errors in advance before breakdowns occur. Corrective maintenance is performed with genuine spare parts. Full and Modular Maintenance contracts available according to plant needs.

SPARE PARTS

Downtime costs money. That's why **Bran+Luebbe** strives to keep downtime to a minimum for customers. The central warehouse has more than 40,000 parts in stock. Direct service teams and sophisticated logistics make sure the parts are delivered and installed as quickly as possible.

TRAINING

Sharing the know-how with you. The extensive range of training seminars is available to all customers. **Bran+Luebbe's** courses are conducted by qualified experts. They convey to your staff the special knowledge needed to ensure an optimum level of safety and reliability and long service life for any plant.

NOVADOS METERING PUMPS

- Horizontal and vertical metering pumps
- Single and multi stream pump configurations to match the process requirement
- Plunger pumps
- Double diaphragm pumps, hydraulically operated with diaphragm condition monitoring system
- Pressure up to 1000 bar / 15000 PSI
- Flow rate up to 22600 l/h / 6000 GPH per pump head

PROCAM METERING PUMPS

- Horizontal metering pumps
- Single and multi stream pump configurations possible
- Plunger pumps
- Double diaphragm pumps, mechanically operated with diaphragm condition monitoring system
- Pressure up to 20 bar / 300 P SI
- Flow rate up to 3000 l/h / 790 GPH per pump head

NOVAPLEX PROCESS PUMPS

- Reciprocating high performance diaphragm process pumps for high pressure and high capacity applications
- Modular design, additions can be added on for future expansions
- Pumping chamber hermetically sealed
- Pressure up to 1000 bar / 15000 PSI
- Flow rate up to 100 m³/h / 440 GPM
- Hydraulic power up to 260 kW / 350 HP
- Remote condition monitoring with the NOVALINK-CSM online diagnostic system

AUTOBLEND PROCESS SYSTEMS

- Complete solution for higher productivity and product quality
- Dramatically improve productivity and reduce running costs
- Reduced down time, minimal maintenance and long life are definitive keys for a cost-effective investment
- Dynamic mixer type PENTAX

Common Applications: Oil & Gas, Chemical, Food & Beverage, Personal Care, Pharmaceutical, Pulp & Paper, Water Treatment
